FOREIGN NEWS. THE TURKISH WAR.

New YORK, November S.—A special to the Herald says the Turkish fleet was about to enter the Black Sea, and will take up the postitions of Sirope and Tro-bizon, both of which ports have been re-cently fortified. If this occurs, the his-tory of 1863 may be repeated, for it will be remembered that it was of Sirope that the Torkish yeards were destroyed by the be remembered that it was on Strope due the Torkish vossels were destroyed by the Russian fleet under Nakhemoff with a loss to the Turks of 4,000 men. This act on the part of Russia made the Crimean war inevitable. The advance of the Turk-

war inevitable. The advance of the Turk-iah fleet into the Black Sea may fire the mine which all Europe is shuddering to see explode.

Another special from the Heraid's cor-respondent at Vienna declares that Ser-via has been tendered 10,000 breech load-ers for militia by the Grand Duke, Mi-chael Constantine, commanding the Rus-sian forces in Bessarabia. Where the men will be found who are to use these arms remains to be seen. The theory in Vienna is that they must come across the Russian frontier.

Vienna is that they make the Russian frontier.

BRUSSELS, November 8.—The Lenard to-day says that Russia has insisted on an early conference of the Powers on the basis of the English proposals. General Ignatieff, Russian ambassador at Constantinople, has been instructed to support engretically a large measure of etantinopie, and ocea large measure of administrative autonomy for Bosnia, Herzegovinia and Bulgaria, with efficacious guarantees under control o the Powers.

ENGLAND.

London, November 8 .- Silver 53%. London, November 8.—Sliver 53%. Leeps, November 8.—The Mercury says that experiments are being made with a process for increasing the durability of iron rails which promises the greatest success. An eminent railroad official has asserted condidently that by this process iron rails can be made more durable than steel, at an increase in cost of only \$5 per ton over ordinary iron rails. THE TIMES AND MR. TILDEN.

THE TIMES AND MR. TILDEN.

The Times claborately reviews the difficulties which Mr. Tilden will have to encounter in consequence of the conflicting
majorities in the Senate and House, and
also because of the claims of the various
sections of the Democrats for office pat-

sections of the Democrata for onice parronage.

The Times considers (for, Tildon's anteceicats a guarantee ngainst his yielding to the pressure of the Southern Democrats in favor of reactionary measures,
and in any event it is more obvious that
there is no danger of his assenting to the
measures of inflation or repudiation. He
moreover is too sagacious to nullify his
foreign policy for the contentment of the
firsh Democrats. There is no ground,
whether from a financial or political
point of view, for denying him the confidence of Englishmen. We are bound to
respect the clearly pronounced will of the
American people, and we cannot consider
it an unmixed misfortune for the Republicans that they are temporarily compelled to breathe the bracing air of opposition.

The press association is informed that the African Explorer foodin intends to continue his explorations in consequence of having discovered a branch of the White Nite which may possibly enable him to avoid the rapids which have hitherto barred his progress, and open a water communication from Victoria Nyanza to Khartouni.

A Paris dispatch says: Intelligence has been received here that Mr. Elliott, has communicated to the Porte the English proposals relative to a conference. The proposals in question are ence. The proposals in question are worded so as to enable either Russia or worded so as to enable either Russia or Turkey to make counter proposals. The Porte will not reply until it knows the position that the other Powers will take. It is believed that France and Italy will maintain a reserve until Russia's views are accertained. Austria has semi-officially announced her intention to await the answer of the other Powers. La France says it is stated that Prince Bismarck has declared that he cannot see the utility of Germany participating in the Conference.

ORIMEN AND CANUALTIES

INDIANAPOLIS, November 8.—A special to the Journal last night from New Castle reports that John Renyon, Democrat, shot and killed Charles Pressal, Republican, while engaged in a political discussion.

The most intense excitement prevails at New Castle to-day over the murder of Pressel, and an attempt was made last night to mob Renyon but did not succeed. It is feared that mother attempt will be made to-night.

A special to the same paper from Anderson, Ind., says a man named Whitlock struck a colored man on the head, when a man named Leonard interfered in behalf of the negro. City Marshall Dougherty then interfered and struck Leonard a terrible blow on the side of the head, from which he died con after.

New York, November S.—It is stated in social circles on the best nuthority that after the excitement of the election has subsided, John Kolly will retire from the leadership of Tammany Hall and marry Miss Theresa Mullin, the younger of the two unmarried nieces of Cardinal McCloskey. Mr. Kelly, when inquiries are made conferring his intention of giving up the leadership of Tammany and retiring to private life, does not deny that this is his purpose, although he does not directly admit it. As the Cardinal has lately recovered much of his former strength, it is stated that there is a strong probability that he will perform the wedding ceremony.

Dastardly Attempt.

SPRINGFIELD, November S.—A most dastardly attempt was made last night to steal the bones of President Lincoln from the cemetery vault here. The plot was suspected some time since and Elmer Washburne, Detective Tywell and assist-ants watched the vault Last night the scoundrels broke in the outer and inner doors of the vault, opened the several doors of the vault, opened ine several cases of the sarcophagus and were about making off with the remains when the detective sprang out. The accidental discharge of a pistol alarmed the robbers and they fled, escaping in the darkness. A slight clue to their identity remains and their capture is probable.

THE ELECTION EXCITEMENT.

Another Day of Suspense—The Tide Tursing in Favor of Hayes — Intense Excitement on the Streets.

The election fever was at white heat yesterday. The returns of Tuesday night indicated the election of Tilden and Hendricks, and the Republicans generally concoded that such was the case, retiring to their homes in no very contented frame of mind. The Democracy, however, were out in full force, and made night hideous with their maudin yells. Several members of the Central Democratic club, about half-past two ciclock in the morning, procured the services of the Wheeling City Band and spent the remainder of the night in serenading prominent expounders of the doctrine of the great unwashed. As the band proceeded through the streets enthusiastic Democraties lil in line, and in a short time a procession of probably a hundred, several of them carrying torches and transparencies, marched about town, yelling for "Tilden, Hendricks and Reform" at the top of their voices. The boys started out to make a night of it, and succeeded. It was past 50 clock A.M. when the straggling procession brought up in front of the McLure House, and proward, you wouldn't shoot a dead rat," and succeeded. We want you wouldn't shoot a dead rat, and was about to go for Jeems, revolver. and succeeded. It was past 5 o'clock a. M. when the straggling procession brought up in front of the McLure House, and proceeded in a formal manner to tender His Excellency Gov. Jacob the honor of a sunrise ecrenade. A committee was appointed to wait upon His Excellency and notify him of the presence of a howling mob of reformers, and all felt jolly when the band began to play. In a few moments the Governor appeared upon the veranda and made a brief speech of congratulation, after which the reformers dispersed and went their several ways. Mr. J. H. Good, who was among the number honored with a serenade during the night, at his residence on 15th street, also addressed the crowd for a few moments.

During the day Democrats fairly boiled over with enthusiasm. They could hardly realize, indeed, that they had won a victory. All were jubliant, but many of the older men sagely shook their heads and referred to the election of Polk, which was for several days very

At the Democratic headquarters there was also gathered an excited crowd, laboring under great anxiety as to the result of the contest, the news from the "Solid South" having disconcerted them more than they were willing to admit. Still, they would concede nothing until a late hour, when the news having been confirmed, and Hayes' election considered probable, they reluctantly begun to confess that there was a possibility that the election had gone against them. This being the case, the "reformers" quietly dispersed, and began to look for their holes, with the evident intention of entering the same and drawing the holes in after them. By 11 o'clock the "Central Club Room" resembled a banquet hall descried, and was shrouded in darkness. The small knot of Dems. who had occupied the pavement in front of the Register office, seeking for Democratic news, not finding much consolation or comfort in the building before, and with the exception of those who had strayed into the saloons to seek spiritual comfort, hardly a Tildenite could be seen outside of his virtudentic co

The crowd surrounding the Intelli-cencer office did not materially diminish oracles once of not materially diminish in numbers until after midnight. About that hour a drum corps made its appearance on the street, and a rush was made for the torches stored in the rooms of the Clay district Republican club. In a few moments the boys were on the street with Clay district Republican club. In a few moments the boys were on the street with their torches, and although minus their caps and capes, which have been a source of much envy to their Democratic friends, they made a very creditable display. At this hour, 1 A. M., several delegations of torch-bearers are parading the streets, shouting for Hayes and Wheeler.
